Report on Awareness Programme at Govt. College Seema, Rohru by ICFRE-HFRI, Shimla

ICFRE-HFRI Shimla organized an awareness programme on plant diversity and bio-fertilizers under mission LiFE at Government PG College Rohru on 28th August, 2025. About 80 BSc students attended the program. Dr Vaneet Jishtu Head extension acquainted students about biodiversity of North Western Himalayan region through pictorial presentation and also talked about different forest types of Himachal Pradesh, citing the importance of biodiversity and its threats. Dr. Ashwani Tapwal, Scientist & Head Forest Protection made a detailed presentation on bio-fertilizer and bio-fungicides. He stressed upon their importance for a sustainable planet. Dr. Joginder Chauhan, briefed student about different theme of mission LiFE and advised students to aware people around them about their role in protection of environment. Dr. Umesh Narta, Associate Professor and Dr. Sunil Negi Professor thanked HFRI Shimla for enlightening their students about plant diversity, bio-fertilizers and mission LiFE. Dr. Kritika Chauhan Astd. Professor Botany and Dr. Raghuvir, Astd. Professor Zoology also participated in the discussions. The Principal of the college Smt. Lalita Rawat appreciated the efforts of the Institute for conducting such awareness and educative programme.
